

# WavePort

Drive on, roll off

*Shown with Hoop Mount  
& Hinge Mounts attached*

The clean sculpted lines of Waveport complement any personal watercraft and enhance the appearance of any dock or pier. WavePort not only looks great, it provides smooth operation and excellent protection for your PWC. WavePort is available in two sizes to accommodate virtually any PWC. The standard WavePort measures 60" x 139" with an 1800 lb capacity. The Deluxe WavePort measures 72" x 144" with a capacity of 2500 lbs.

## Features

- Unsinkable, foam-filled polyethylene construction.
- Durable, corrosion-resistant materials – virtually maintenance free.
- Specially designed guide roller perfectly aligns watercraft.
- Premium quality, heavy-duty side rollers.
- Molded-in pontoons provide excellent stability.
- Molded bow stop with tie-down cleat.
- Two Sizes and two load capacities available.

## Two Mounting Styles

Hoop Mount Kit: Slides over pilings. Includes 2-1/2" and 5-3/4" ID brackets.

Hinge Mount Kit: Attaches to dock/pier with bolts or lag screws.
