

Personal Watercraft Lift

Make it easy on yourself

Double Winch
1790 and 2300 Lifts

Dragging your personal watercraft or small boat across a rocky shore to take a break or make repairs can ruin your hull (and your back). Hewitt has a better solution . . . a SINGLE or DOUBLE P.W. Lift. Raise and lower your light craft without strain or damage. Range of capacities from 900 lbs to 1800 lbs.

Standard Features

- All-aluminum construction – low weight, strong and rust-free.
- Bed frame reinforced with horizontal cross bars.
- Self-braking winch with enclosed gears.
- Acetal delrin plastic pulleys with stainless cable.
- Adjustable pressure treated wood bunks.
- Bunks are covered with marine carpeting.

Single 900 Cantilever

Includes: Winch with 30" wheel and spinner knob, two 18" leveling legs and end caps.

Single 1150 Cantilever

Includes: Winch with 40" wheel and spinner knob, two 18" leveling legs and end caps.

Single 1100 Hi-Lift

Includes: Winch with 40" wheel and spinner knob, four 30" leveling legs and end caps.

Double Winch 1790/2300 Cantilever

Includes: Two independent winches with 30" on 1790 Model & 40" on 2300 Model wheels and spinner knobs, end caps and 18" leveling legs (three with Model 1400, four with Model 1790).

Double 1200/1500/1800 Cantilever

Includes: Winch with 40" wheel and spinner knob. One 2" x 6" and one 2" x 8" set of bunks – allows one PWC to float free while the other is still supported.

Optional PWC Bunk Upgrade

Full-length aluminum tubes with plastic non-scratch glides. Protective end caps available in accessories section.

See pages 36-47 for accessories and canopies.
