

Slide-N-Go

Get on track with this portable small craft lift

Free up dock space and protect the hull of your small boat or PWC with this easy-to-assemble rail lift. Sets up almost anywhere in minutes.

Slide-N-Go is as simple as its name. Slide your watercraft down the non-scratch plastic glides and crank it back on in seconds. Need extra length?

The basic model can be quickly expanded with an add-on track extension. A sufficient amount of cable strap is included with the winch to accommodate the use of track extensions.

Standard Features

- 1200 lb. maximum load capacity.
- Heavy-duty aluminum construction – strong, low weight, maintenance-free.
- Stainless-steel hardware for superior corrosion resistance.
- No-maintenance extruded plastic track glides with UV protection.
- 45° angled plastic end caps to aid mounting of watercraft and to accommodate shallow water.
- 20' winch strap with hook.
- 3:7:1 winch ratio for easy operation and quick recovery of craft.

Optional

- 8' track extension. Includes anchor/support brackets.
