

# Dock Relaxation Accessories

## **Aluminum Bench**

FLOE's Aluma-Grain™ bench gives you the look of wood with maintenance-free aluminum. The bench attaches anywhere on the dock and comes standard with two arm rests. It never requires painting or staining and will give you years of enjoyment.

## **Hammock Stand**

For the ultimate in lakeside relaxation, read a book or take a nap over the water on a FLOE hammock. Sturdy aluminum frame swivels over the dock for easy access. Just add your favorite hammock to this stand and you are ready to relax.

Frame capacity 250lbs

# Dock Access Accessories

Available for roll-in & stationary docks

## Swim Ladder

Extra-long vertical grab handles give you leverage for easy dock access without taking up dock space. FLOE swim ladders attach anywhere on the dock. Available in 58" & 70" heights.

## Dock Steps

Dock steps make it as easy to get out of the lake as it is to jump in. The steps have an all-aluminum construction for a lightweight, long-lasting addition to your dock. The accordion style design will accommodate water depths up to 32" (four step style) and 53" (six step style). The extra deep 12" steps and standard handrail make this a great solution for lake users of any age.

Available for roll-in & stationary docks

# Dock Bumper Accessories

Available in  
Aluma-Grain™ finish

## Vertical Bumper

The ultimate way to keep scratches off your prized possessions. Available in 30" and 40" heights. Recommended every 4' to 6' where boats will be parked and for use on corners as shown above. Attaches anywhere and has infinite vertical adjustment. Vertical bumpers are available in aluminum or with FLOE's exclusive Aluma-Grain finish.

Custom-engineered extruded aluminum and heavy-duty vinyl insert.

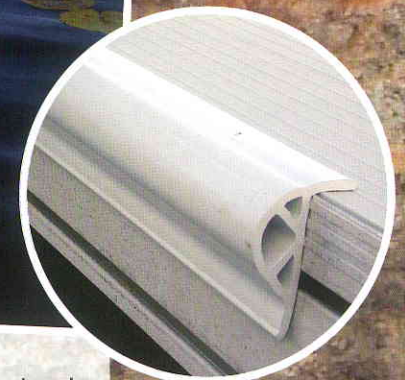

## Horizontal Bumper

FLOE's horizontal bumpers are available in 30" lengths and can mount anywhere along your dock's edge. Constructed out of heavy-duty aluminum with a vinyl insert.

## Corner Bumper

Soft PVC corner bumper rivets to deck surface and protects your watercraft from the corner of the dock.

## Bumper Edging

Made from extruded vinyl, FLOE's bumper edging works great along the dock edge and as a bow protector when entering a slip. Bumpers are sold in sets of two 10' lengths.

# Additional Dock Accessories

## Dock Cleats

FLOE's heavy-duty aluminum cleat is perfect for tying off your boat. Mounts to the frame of dock as shown or using a bracket on a floating dock. Cast aluminum cleat is 7" long. Works for roll-in, stationary and floating docks.

Available for roll-in & stationary docks

## Shore-End Wheel Kit

Eliminates lifting and makes installation and removal easier than ever! Wheels can be turned to the inside or outside depending on application.

## Handrails

Handrails add safety, ease and access to your dock system. 42" tall aluminum safety handrails are extra sturdy and have clean rounded radial corners.

Available for roll-in & stationary docks

## Speed Wrench

Level your dock without getting wet! Adjustable height speed-wrench makes leveling your dock a breeze.

## Adjustable Support Posts

FLOE's support posts with mounting brackets are available in 2 1/2', 4', 6', 8', and 10' lengths. Mainly used for shore-end support. Posts can also be used on sundecks in some situations.
